

Table S1. Primer and polymorphism information for three plastid DNA sequence regions studied in *Restio capensis*, including region name, primer name, forward and reverse primer sequences, length of analyzed sequence regions, numbers of SNPs and Indels detected, and primer source.

Region	Primer	Sequence	Length	SNPs	Indels	Source†
ssrt9	F*	AAACTACCGGTTTCGCTTGGTGG	417	2	0	newly designed
	R	ACCAGTAGGTCCTTGGGCGGAT				
ndhA intron	F	GCYCAATCWATTAGTTATGAAATACC	305	2	0	Shaw <i>et al.</i> 2007
	R*	GGTTGACGCCAMARATTCCA				
psbD Exon	F*	CCTTGTGCYTATTTTCGCYTTA	466	1	0	Scarcelli 2011
	R	TTCATGAGGCTGATCCTGAG				

*Primer used for population-level sequencing of amplicons. †References for previously published primer pairs can be found in the main paper.
